Connection of the Modular Pyramid

Features

- 1, The purlins also work as rain gutters, water from the top will be released from the upright supports, avoiding rains pouring down from the roofs directly, humanized design.
- 2, Multi-form of connecting, shoulder by shoulder connecting, four tents square connecting, random connecting (customized connecting).
- 3, Shared upright supports and purlins, seamless connection, extendable unlimitedly.

Functions

Its extendable design makes the Modular Tent a perfect solution for temporary exhibition hall, mobile office, VIP lounge, multi-functional suites, etc.
